Biofuels, palm oil and the REDII: what’s the way forward?

Bart Vandewaetere
European Parliament, 24 May 2018
By 2020: Nestlé will use 100% responsibly sourced palm oil
Responsible Sourcing at Nestlé

- Engaging with our suppliers and supporting smallholders
- No deforestation
- Labour rights assessment and action plan
When considering biofuels

- Put **food security** and **water stewardship** first
- **Continued research** on credible and sustainable alternatives
- Continue to **improve our own energy efficiency**
By 2030: zero environmental impact across our operations

Joint call for ambitious truck fuel efficiency standards
